2. About the concept of a tourist photoatlas

The tourist photoatlas “Five days in the Topkapi Palace Hotel” documents our vacation in Turkey (March 2024) and, together with the photoatlases “Visiting Little Moscow on the Turkish Riviera” and “Five days in the Titanic Mardan Palace Hotel”, forms our new series of illustrated atlases about palace-style hotels as resort and hotel complexes with original architectural concepts on the Turkish Riviera in the Antalya-Kundu region (between Lara and Belek).

Swandor Hotels & Resorts Topkapi Palace has the architectural concept of the magnificent Topkapi Palace in Istanbul.

The Titanic Mardan Palace Hotel was built in the Ottoman palace style and resembles the famous Istanbul Sultan's Palace Dolmabahce.

The Asteria Kremlin Palace Hotel conveys a symbol of rich Russian culture in the style of a royal palace and is a replica of the Kremlin.
